LEGAL BROCHURE

01 // FRAUD

Our Special Investigations Unit (SIU) handle fraudulent personal injury as a result of alleged negligence. Our team is comprised of highly qualified experts who have extensive experience uncovering fraud and producing tangible results.

02 // DUE DILIGENCE

Using meticulous methods our Open Source Intelligence Unit (OSIU) performs targeted and comprehensive due diligence investigations that will provide detailed background information and intelligence regarding the personal and professional business reputations, records of litigation, disputes and other undisclosed concerns.

03 // LOCATE & DOCUMENTS

Our team of investigators utilize comprehensive aggregate databases to locate persons to be served legal documents, or to locate a key witness to an accident or other legal proceedings, perform financial and asset background checks, locating heirs and missing relatives.

04 // COMPUTER FORENSICS

Our Cyber Forensics Unit (CFU) can provide litigation support for civil cases where large quantities of information are obtained during the discovery process. An overwhelming amount of data can hinder a proper investigation process, and waste valuable resources and time.

LEGAL SUPPORT SERVICES

Just as law firms have specialized attorney's for specific areas of law, private investigators also have specialized areas of expertise in their respective field.

For each type of lawyer, there is a comparable private investigator who can support their work, from finding someone who is dodging papers being served, to locating and interviewing a key witness, to confirming if an insurance claim is truly valid.

Retaining a qualified and vetted private investigator who is highly analytical, can give law firms the insight into critical intelligence that can be leveraged with confidence.

SPECIALIZED SERVICES

From covert surveillance and undercover operations to complex investigations and computer forensics, Tacit Investigations & Security can provide an array of expert services to your law firm or client needs.

MANAGEMENT TEAM

The management team at Tacit Investigations & Security is diverse and specialized with over 75 years of combined industry experience.

Quality private investigators and security specialists employed by Tacit Investigations & Security have built their reputation by successfully handling the diverse needs of our clients. We compassionately handle your needs and act with great intensity to solve your most pressing matters.

We guarantee results, professionalism and privacy while working on any assignment, from highly complex investigations to covert surveillance operations.

05 // SURVEILLANCE

Our team of operatives are highly trained in fieldcraft techniques and utilize only the most advanced technology in the industry to obtain the required documentation for our clients.

06 // TRADE MARK PROTECTION

We provide our clients with admissible evidence to help litigate intellectual property violators including trademark and copyright infringements, theft and marketing of illegally obtained patents and trade secrets.

07 // WRONGFULLY CONVICTED

Our team of investigators can assist in exonerating innocent people wrongfully convicted by gathering information, conducting interviews, analyzing statements from witnesses in police reports, examination of evidence and the introduction of additional evidence not uncovered previously.

08 // NON-COMPETE COVENANTS

Our team of investigators can provide strategic methodologies to gather evidence to support the Non-Compete and/or Non-Solicit violation. Gathering sufficient evidence is key in obtaining an injunction to halt the violation.
